

*International
Airline Career
Pilot Program*

America's Largest Flight School

"I just finished my flight training at ATP Daytona Beach and went from zero to Commercial multi-engine, with an instrument rating in only 6 months. I thought it would be impossible to do it in such a short time, but ATP gave me what I paid for, in the time they promised, and I didn't pay one extra cent from the initial budget.

Their program is amazing, well structured according to FAA standards and there's always somebody to help you when needed. There was always availability of airplanes and never had to cancel due to a plane malfunction. Every check-ride was a breeze because I went in well prepared..

I compared ATP with other schools and no one would give me what ATP offers. Congratulations for running the best flying school."

— Antonio Ruano
ATP Graduate

About ATP

Since 1984, ATP has steadily grown to become the largest flight training company in the United States, providing over 5,200 FAA certificates annually. Through efficient, highly focused training towards pilot certification, ATP prepares men and women for professional pilot careers with airlines, corporate flight departments and air charter companies.

Financial Strength

Your flight training investment is substantial. Choose a school you can trust. As America's largest flight school, ATP's capital investment in professional pilot training is unparalleled, with 41 locations, over 300 owned – not leased – aircraft, and 11 dedicated maintenance centers.

Reputation

Over the last 30 years, more pilots have come to ATP to enhance their qualifications for major airline pilot jobs than any other flight school or academy in the nation.

With the world's largest fleet of multi-engine training aircraft, a staff of highly qualified flight instructors, and the knowledge and resources that only comes with experience, ATP students are offered the unsurpassed

level of quality training that has solidified ATP's reputation as America's leader in professional flight training.

Largest Multi-Engine Training Fleet in the World

+300 *Training Aircraft*

ATP's fleet of over 300 flight training aircraft include single-engine, multi-engine, glass cockpit, and jet aircraft – giving you well-rounded experience in a fleet with proven dispatch reliability.

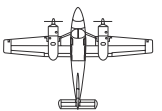

International Airline Career Pilot Program students have exposure to the following aircraft throughout their training programs:

Cessna 172
Skyhawk

DA40
Diamond
Star

Piper
Seminole

An on-site maintenance department ensures ATP's aircraft are maintained to the highest standards and allows for maximum aircraft availability, keeping your training on time.

+100 *Multi- Engine*

The largest fleet of multi-engine training aircraft in the world. Only ATP can offer you this level of certainty and peace of mind when it comes to aircraft availability for your training and checkrides.

*Become a
Commercial
Pilot in Just
9 Months*

International Airline Career Pilot Program

ATP's International Airline Career Pilot Program takes you from zero time to Commercial Instrument Pilot in just nine months, using ATP's proven airline-oriented flight training.

With extra flight time built-in, the International Airline Career Pilot Program nearly eliminates extra charges for additional training, which are common at other schools. ATP quotes its fixed price based on realistic flight training requirements, not FAA or EASA minimum qualifications.

\$61,400 / 9 Months

Training Includes

- FAA Private Pilot License (PPL)
- FAA Instrument Rating (IR)
- FAA Commercial Pilot License, Multi-Engine (CPL ME)
- 255 Hours Logged Flight Time
 - 170 Hours Single-Engine Instruction & Flight Checks
 - 35 Hours Multi-Engine Instruction & Flight Checks
 - 50 Hours Simulator (FTD)
- All Classroom & Individual Ground Instruction
- Aircraft Manuals, Training Syllabus, & Checklists
- All Pre- and Post-Flight Briefings

The Resources You Need for Success

ATP's full-motion flight training device is available to International Airline Career Pilot Program students free of charge, for unlimited additional practice and self-study time.

Payment Schedule

Reserve Class Date*	\$1,400
Upon Class Start	\$6,000
4 Weeks After Start	\$10,800
8 Weeks After Start	\$10,800
12 Weeks After Start	\$10,800
16 Weeks After Start	\$10,800
20 Weeks After Start	\$10,800
Total Fixed Cost	\$61,400

If a student holds a Private Pilot License and meets certain requirements, \$7,500 can be saved off the cost of training, and the program can be completed in 6 months. Contact Admissions for more information on this program.

*\$1,000 is refundable if for any reason your Student Visa is denied. The remaining \$400 is a non-refundable payment for processing visa paperwork.

Additional Costs Not Included

- Housing & Food
- Airfare & Transportation
- Medical, Licensing, FAA Knowledge Tests, and Examiner Fees
- Immigrations and TSA Fees
- iPad, Books, and Supplies

"A few months ago I had a dream of being a commercial pilot and guess what, thanks to ATP, 7 months later, its no longer a dream but a reality, with their International Career Program, I have both my CPL/IR/ME.

I came in with a Private pilot certificate and they were able to adjust the program to accommodate me, so that I wouldn't have to spend anymore than that mentioned on their website.

The training attained at ATP has really opened my mind into a whole new level of skills and professionalism in the aviation industry, from the instructors, the management and my fellow students.

If you have ever thought of becoming a pilot and you are confused to which flight school to go to, then ATP is the right solution. They have full time instructors who are willingly ready to help you at any point of time during your training and even after you graduate, with over 20 aircraft [at the Daytona Beach training center], you will never be stuck at the ramp due to unavailability of aircraft; every resource you need for your training is available whenever needed."

— Brian Wamala
ATP Graduate

"I must say that completing my flight training in ATP has been by far one of the best experiences in my life. I went from zero time in an aircraft to a commercial pilot within 8 months. I have nothing but nice things to say about the staff at ATP. They'll treat you as part of a family, and from the very first day you feel welcomed into this family. From getting my visa to moving in to my apartment, as well as training, was very fast. All instructors at ATP are dedicated, no matter when, if you have a question, they'll answer. Everyone is eager to learn, and become a better pilot at ATP. I can't think of a better place to do flight training!"

iPad Courseware

When you train with ATP, you train using the latest technology. Your iPad gives you access to courseware, navigational charts, and test prep applications that you'll use in training. Airlines are rapidly adopting electronic charts for their own flight decks, and you'll use them in training.

Your student extranet is a mobile-optimized web app from which you can access:

- Lesson Plans, Syllabus, and Program Outline
- Online Scheduling and Calendar Sync
- Training Resource Library

Daytona Beach, Florida Campus

Train in sunny Daytona Beach, Florida. Good weather and the Florida airspace provide an ideal flight training environment.

ATP's training center is a short distance from Embry-Riddle Aeronautical University, making it convenient for students to enroll with ATP for flight training and Embry-Riddle for a university degree.

ATP has specially arranged accommodations that are conveniently located near the airport and training center.

Things to do in Daytona Beach

Daytona Beach offers beautiful weather year-round, world-famous white sandy beaches, and is home to the Daytona International Speedway – best known as the host of “The Great American Race”, the Daytona 500. If you enjoy sports, Daytona Beach has much to offer, including the Daytona Cubs Professional Baseball games, water parks, golfing and much more.

Surrounding Area Attractions

Located minutes from Orlando, at Daytona Beach you'll have access to world-class attractions, such as Walt Disney World Theme Parks, Universal Studios, and Islands of Adventure. The famous Kennedy Space Center is also just a short drive from ATP.

"I really enjoyed my experience going through the International Airline Career Pilot Program at ATP Daytona Beach...Very professional training with phenomenal flight instructors and maintenance staff, with state of the art airplanes and flight simulators. Furthermore, I earned a lot of life long friends from all around the world. I felt like I was a part of a big aviation family."

— Dhilanjana Ediriweera
ATP Graduate

Frequently Asked Questions

When does the program start?

The program starts the 3rd Monday of every month.

How long does it take to get the visa?

It typically takes 4-6 weeks to complete the enrollment process.

Is it hard to get the visa?

No, ATP will help you with every step. The process consists of a few applications and an in-person interview at a US Embassy.

Do you offer accommodation?

Accommodation is available in a nearby apartment complex, as well as area hotels.

Shortly after scheduling the program, an ATP representative will contact you to find out what assistance you need with accommodation, transportation, and anything else you need to assist with your transition to the US.

Is it possible to share housing with another student?

Yes. It may be possible to share housing with another student. It is important to contact your International Student Advisor as soon as possible. They will be able to contact other students to inquire if they are also interested in sharing housing.

What is a typical training day like?

Typically, you will have two flight activities per day. These activities can include flights, ground sessions, simulators/ FTD's, or a combination there of.

Is there a uniform policy?

Yes. All students are required to adhere to ATP's published uniform policy. This includes: ATP Dri-Fit Golf Shirt, tucked in; khaki, navy, or black chino pants or dress-shorts, with a belt; dress shoes or sneakers.

When should I arrive in Daytona Beach?

It is recommended that you arrive one week prior to your start date. This will give you the opportunity to become accustomed to the timezone and have your housing and other issues resolved before your start date.

Will I need transportation while training with ATP?

ATP is located within walking distance of your permanent housing. Some students buy cars, bicycles, or scooters, others walk to the facility. Transportation will be provided for you during the first two weeks for ATP related events such as FAA Medical Exam, TSA Fingerprinting, and from the Daytona Beach airport upon arrival (during regular business hours). Your International Student Advisor can assist you with transportation arrangements from other airports.

How to Get Started

Complete a Student Visa Application Form

International students who require a student visa will complete a Student Visa Application Form and make a \$1,400 USD payment as follows:

- \$400 USD non-refundable application fee.
- \$1000 USD first payment to reserve your class date. This payment applies to the course price, and is fully refundable if for any reason your Student Visa application is denied.

Schedule Your Start Date

Finally, when you are ready to select a class date and submit your application for processing, please call ATP International Admissions at:

Phone: +1 904-595-7950

Skype: atp-international

Prerequisites

The International Professional Pilot Course is an intensive training program. Before you enroll, you must:

- Be 18 Years of Age
- Read, Understand, and Speak English
- Pass ATP's Flight Aptitude Test
- Graduated High School (or equivalent of US high school)

"Training at ATP was more of an honor for me, as I had previously stepped foot into another flight school, and it does not compare to ATP. I found a passion for flying not too long ago and I felt that in this matter I needed to be trained at a school where I finished not as just a pilot, but as a professional pilot. ATP made sure of that."

— Victor M. Guzman
