RE: SkyWest Airlines Bridge Program with ATP

ATP Training Department:

In this letter I wish to commemorate ATP's participation in the SkyWest Airlines Bridge Program. SkyWest has selected ATP as a preferred training provider based on ATP's established track record training commercial pilots for airline employment. This preferred position awards ATP Tier 1 status within the program. Tier 1 status affords eligible ATP students the opportunity to enter into the Enhanced Internship Program. Per the terms of our agreement, SkyWest will offer guaranteed interviews and conditional offers of employment, including a date of hire with SkyWest Airlines.

SkyWest is a premier national airline, offering one of the most highly sought-after pilot careers in the industry. We anticipate continued growth and increased need to hire more highly qualified pilots with airline-oriented flight training.

PilotPool.com will be a valuable asset in monitoring the progress of pilots who receive conditional offers of employment. We encourage all career-minded pilots to utilize this service.

In an effort to help establish this pilot pipeline, we look forward to our continuing relationship with the professionals at ATP.

Sincerely,

Camielle Ence
